Step 4. That's it you have created your SendGrid account and got access to dashboard

The screenshot shows the SendGrid dashboard for user Murali Krishna. The main heading is 'Welcome, Murali !'. Below it, a message says 'To get up and running quickly, please follow the steps outlined below.' The primary action is 'Send your first emails with Twilio SendGrid'. A section titled 'Create a sender identity' explains that a sender identity is the 'from' email address. It offers two ways to create one: 'Create a Single Sender' (highlighted with a blue button) or 'Authenticate a domain instead'. A diagram shows an email header with 'Your Business' as the sender. At the bottom, a message states 'Please create a sender identity before sending your first email.' The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The bottom status bar shows a 'REPUTATION' of 100%.

Output:

Send Grid account created successfully.
